# RICHARD LAYARD

## Why Happiness Should Be the Aim of Public Policy

Richard Layard is one of the pioneer economists who has worked on establishing the relationship of happiness and economics. He is the author of "Happiness: lessons from a new science". His current interest is on how mental health could improve our social and economic life. Lord Layard is currently chairing the World Economic Forum Global Agenda Council on Health and Wellbeing.

With regards to unemployment, Lord Layard co-developed the Layard-Nickel model on how unemployment is determined and is currently the most commonly used model by many European economists and governments.
